EDUCATION

GRAPHIC ERA UNIVERSITY

Bachelor of Technology in Computer Science

Dehradun, Uttarakhand

May. 2019 – June 2023

GAGAN BHARTI SCHOOL

CBSE(XII) Percentage: 82% CBSE(X) CGPA: 9.2/10

Delhi, India

Aug. 2016 – April. 2019

EXPERIENCE

Frontend developer intern - Allobulls

January 2024 – current

Dehradun, Uttarakhand

- Engaged in frontend development with React JS and Ant Design, transforming Figma designs into high-quality, user-friendly web interfaces.
- Contributed to code quality by developing JEST unit, integration tests, and E2E tests with Cypress
- Developed mock APIs on the frontend to ensure smooth backend integration.
- Participated in Android/iOS app development, showcasing cross-platform expertise.

IEEE - SDE Intern

July 2022 – Sep 2022

Dehradun, Uttarakhand

- Developed a face recognition tool to detect, separate, and match individuals in group photos.
- Designed and implemented a user-friendly using JavaScript frameworks

PROJECTS

HiveSocial | React, javascript, Typescript, Jest, Cypress

Social Media Web App functional UI

- Developed a feature-rich Social Media Web App with React, TypeScript, and Ant Design.
- Implemented user authentication, dynamic post creation, and interaction features.
- Conducted comprehensive unit and integration tests using Jest and Cypress
- Used GitHub Actions for automated linting, testing, and deployment (CI/CD), Generated an Android App with CapacitorJS for mobile accessibility.
- Implemented design principles, including user confirmation prompts.

GitHub: Code **Live:** HiveSocial

Healthy Report | Javascript, MongoDB, Express.js, React, Auth0

Health Report Application

- Engineered a web-based health reporting platform using MERN stack and Auth0 for streamlined injury submissions and data management.
- Implemented a user-friendly interface with body map integration, enabling intuitive reporting and tracking of health incidents.
- Integrated Auth0 authentication to safeguard user data and provide a secure login mechanism.

GitHub: Frontend Backend **Live:** HealthyReport

Communicate | Javascript, MongoDB, Express.js, React, Node.js

Real-time chat app

- Designed and Developed a Real-time chat application using the MERN stack and Socket.IO, featuring user authentication, friend management, and chat functionality
- Created a dynamic user interface, enabling users to chat with friends, send friend requests, global user search, and view chat history
- Emphasized coding excellence and best practices for scalability.
